Barium Fluoride

Formula: BaF₂

CAS NO.:7787-32-8

M.W: 175.32

Properties: White cubic crystal; relative density:4.83; melting point:1354℃; soluble in hydrochloric acid, nitric acid, acetic acid and hydrofluoric acid and slightly in water

Specification: (%)

Assay (BaF ₂)	98 min
HF	0.15 max
S	0.1 max
Pb	0.01 max
P	0.01 max
Hg	0.001 max
H ₂ O	0.15 max

Application: Welding flux, optical glass and infrared transmitting film

Storage: Store in a cool, ventilating place. Prevent package from breaking and deliquescing

Packing: 25kg net, double plastic bags lined plastic woven sack.

Hazardous details:

UN No. : 1564

Class : 6.1

Packing: II
